24/7 Sales & Rentals

Model: PCS-2000

Among the most powerful units available, at 2000 CFM this unit is changing the air in a typical 12 x 12 room well over 100 times an hour. The true HEPA filter removes airborne particles down to .3 micron in size with 99.97% efficiency. The unit also uses replaceable primary and secondary filters too to improve the life of the HEPA filter.

Features:

- Heavy duty aluminum cabinet is lightweight, durable, rust resistant
- Modular control panel, control panel unplugs for easy removal
- Sealed control box eliminates leakage around gauges
- Locks on HEPA filter assures a positive seal around HEPA filter
- Four heavy duty swivel casters, two w/locks provides easy mobility
- Rugged carrying handles provide easy portability
